

Martina 3 Light Semi-Flush Mount Black and Brushed Brass

The “Martina” Collection is so unique from a design stance. The glass is actually shaped as a bulb and the bottom glass holder is designed like the bottom of a vintage screw type bulb. The wiring has a “vintage” element since it is twisted the way Thomas Edison first introduced the bulb. The metal work is black while the glass holder is brass. Shown here is the 3 light semi flush but there are many matching units such as an island fixture, circular fixture and more.
